

INDEX TO VOLUME THIRTY-THREE, 1967

A

| | | |
|---|----------------|----------|
| ABO AND RH INCOMPATIBLE, Immunologic Competition Due to _____ | Pregnancy | 228 |
| ABSTRACTS | 150, 259, 346, | 430 |
| ABSTRACTS OF 1967 CONVENTION SPEECHES | | 69 |
| ACHROMOBACTER, _____ and Moraxella (Tribe Mimeo): A Review and New Studies | | 201 |
| ACID-FAST BACILLI, Evaluation of Smears of Gastric Contents for _____ | | 246 |
| ALKALINE PHOSPHATASE, An Improved Automated Method for Serum _____ with _____ | | 87 |
| ALKALINE PHOSPHATASE, Comparison of Phosphatase and King-Armstrong _____ | | 235 |
| Methods for Determination of _____ | | 221 |
| Allen, Turman E. | | 242, 129 |
| Anzman, Therese R. | | 479 |
| ANTI-FY ^a , Erythroblastosis Fetalis Due to _____ in Salisbury, Rhodesia | | 339 |
| ANTI-GOOD BODY, Present Status of the Good Antigen and _____ | | 337 |
| ANTIMICROBIAL DISC SUSCEPTIBILITY READINGS, Interference of Lysogenic _____ | | 306 |
| Shigella Flexneri with _____ | | 349 |
| Appelman, Henry D. | | 105 |
| ATOMIC ABSORPTION, The Determination of Serum Magnesium: _____ | | 158 |
| Automated Fluorometry vs. _____ | | 366 |
| ATOMIC ABSORPTION SPECTROMETRY, _____ Theory, _____ | | 354 |
| Instrumentation and Application _____ | | 467 |
| ATOMIC ABSORPTION SPECTROPHOTOMETRY, The Measurement of Serum _____ | | |
| Magnesium by _____ | | |
| AUTOMATED ANALYSIS, Serial Lactic Dehydrogenase and Glumatic _____ | | |
| Oxaloacetic Transaminase _____ | | |
| AUTOMATED FLUOROMETRY, The Determination of Serum Magnesium: _____ | | |
| vs Atomic Absorption _____ | | |
| AUTOMATIC DILUTING, A Comparatively Inexpensive _____ Pipette _____ | | |
| for the Clinical Laboratory _____ | | |

B

| | | |
|---|-----------|-----|
| BACTERICIDAL EFFECT, The Decreased _____ of Uremic Blood on _____ | | 493 |
| the Isolation of Micro-Organisms _____ | | |
| BACTERIOLOGICAL NASAL FLORA, A Handkerchief Method for _____ | | 243 |
| Sampling the _____ | | |
| BACTERIOLOGICAL PROCEDURE, _____ for the Small Hospital Laboratory: _____ | | |
| A Rapid Method for Isolation and Identification of Staphylococci, Streptococci, and _____ | | |
| Gram Negative Bacilli from Clinical Material _____ | | |
| Bagai, R. C. | | 285 |
| Baird, Irwin L. | | 423 |
| Barry, A. L. | | 394 |
| Batsakis, John G. | | 387 |
| BILE CANALICULI, A New Stain for _____ | | 306 |
| Bills, Robert F. | | 459 |
| Birdwell, T. R. | | 35 |
| BONE DECALCIFICATION, _____ Expedited by Ultrasonic Sound _____ | | 251 |
| BOOK REVIEWS | 104, 330, | 427 |
| BOOKS SUBMITTED FOR REVIEW | 67, | 428 |
| Branson, Dorothy | 135, | 408 |

C

| | | |
|--|--|-----|
| C, Mild Hemolytic Disease of the Newborn Due to Anti _____ | | 175 |
| CALCIUM, Total and Ultrafiltrable _____ and Magnesium in _____ | | |
| Human Plasma: Improved Method and Normal Values _____ | | 448 |
| Campbell, Carey W. | | 46 |
| Campbell, K. N. | | 240 |
| CELL COUNTS, Revision of a Method for Performance of Total and _____ | | |
| Differential _____ in Cerebrospinal and Serous Fluid _____ | | 336 |
| CELLULOSE ACETATE ELECTROPHORESIS, Normal Values for _____ | | 501 |
| CELLULOSE ACETATE PROTEIN, Reflectance Densitometry _____ | | |
| of _____ Electrophoresis _____ | | 28 |
| CENTRIFUGAL FORCE, _____ in Hemagglutination Tests _____ | | 221 |
| CEREBROSPINAL AND SEROUS FLUID, Revision of a Method for Performance _____ | | |
| of Total and Differential Cell Counts in _____ | | 336 |
| CEREBROSPINAL FLUID, Concentration of _____ by Ultra Filtration _____ | | 225 |
| CHROMOSOME STUDIES, A Simplified Method of Mailing Small Samples _____ | | |
| of Whole Blood for _____ | | 251 |
| CIRCULATORY SHOCK, Medical Technology as Applied in _____ | | 21 |
| CLOSED-CIRCUIT TELEVISION, Teaching Laboratory Techniques with _____ | | 253 |
| COAGULASE POSITIVE STAPHYLOCOCCI, Evaluation of a Medium for _____ | | |
| Isolation and Identification of _____ | | 490 |
| COMPLEMENT ACTIVITY, Serum _____ in Normal Individuals and _____ | | |
| Patients with Sickle Cell Hemoglobin Abnormalities _____ | | 77 |
| Controni, Guido | | 379 |
| Cook, Virginia P. | | 275 |
| CREATINE PHOSPHOKINASE, Serum _____; A Useful _____ | | |
| Tool in Muscle Disease _____ | | 269 |
| CREATINE PHOSPHOKINASE, Serum _____ in Myocardial Damage _____ | | 275 |
| Crocker, Carolyn L. | | 361 |
| Cronkleton, Jane | | 308 |
| CRYPTOCOCCOSIS, _____ Due to an Unusually Slow-Growing Organism _____ | | 397 |
| Curtin, Mark K. | | 175 |
| CYTOCHROME OXIDASE TESTS, Effect of Incubation Temperature on Enzyme _____ | | |
| Production for Lysine Decarboxylase and _____ | | 375 |
| CYTOLOGY, Plasma Clotting—A Tool for _____ | | 332 |

| | |
|---|----------|
| D | |
| DEFROSTING THE CRYOSTAT, An Efficient Method of _____ | 242 |
| Delvaux, Thomas C., Jr. | 336 |
| DERMATOPHYTES, Isolation and Identification of the _____ of Man | 179 |
| DIGNITY, _____ Elevation of Character; Intrinsic Worth; Excellence | 248 |
| DIPLOCOCCUS PNEUMONIAE, Long Term Storage of _____ | 426 |
| Di Salvo, Arthur F. | 482 |
| E | |
| Eichman, Mary F. | 339 |
| ELECTRON MICROSCOPY, Tissue Preparation for _____ | 35 |
| ELECTROPHORESIS, Hemoglobin _____ | 513 |
| ELECTROPHORESIS, Reflectance Densitometry of Cellulose Acetate Protein _____ | 28 |
| Elston, Harry R., Jr. | 97 |
| Elston, Harry R., Sr. | 97 |
| EMBEDDING MEDIUM, Polyester Wax as an _____ for Serial Sectioning | 394 |
| of Decalcified Specimens _____ | 479 |
| ERYTHROBLASTOSIS FETALIS, _____ Due to Anti-Fy ^a in Salisbury, Rhodesia | 479 |
| F | |
| FACTOR V ASSAY, A Simple Method for _____ | 281 |
| Favero, Martin S. | 334 |
| Feeney, K. L. | 387 |
| Fisher, William | 333 |
| Francis, Wayne G. | 77 |
| Freaker, Ronald | 243, 493 |
| Freier, Esther | 87 |
| Frigan, F. T. | 148 |
| FROZEN SECTIONS, Modified Hematoxylin and Eosin Staining Technique for _____ | 151 |
| FUNGI, Sabhi, A New Culture Medium for Pathogenic _____ | 151 |
| G | |
| GAS CHROMATOGRAPHY, Steroid Analyses by _____ | 437 |
| GASTRIC CONTENTS, Evaluation of Smears of _____ for Acid-Fast Bacilli | 246 |
| GEL FILTRATION-SPECTROPHOTOMETRIC, An Evaluation of a _____ | 354 |
| Method for Spinal Fluid Protein _____ | 334 |
| GELATINE, A Combination of Medium for Demonstrating Starch and _____ Hydrolysis | 142 |
| GENERAL APTITUDE TEST, Validity and Predictive Studies on the _____ Battery | 372 |
| Gerlach, E. Hugh | 201 |
| Gilardi, Gerald L. | 120 |
| Glick, Melvin Roy | 167 |
| GLUCOSE-6 PHOSPHATE DEHYDROGENASE, Comparison of Qualitative and _____ | 311 |
| Quantitative Assays for Erythrocyte _____ | 474 |
| Godes, Janice R. | 339 |
| Goldin, M. | 151 |
| GOOD ANTIGEN, Present Status of the _____ and Anti-Good Antibody | 505 |
| Gorman, James | 285 |
| GRADUATE STUDY, _____ Interests Medical Technologists | 349 |
| GRAM NEGATIVE BACILLI, Bacteriological Procedure for the Small Hospital Laboratory: | |
| A Rapid Method for Isolation and Identification of Staphylococci, Streptococci, | |
| and _____ from Clinical Material _____ | 285 |
| Gray, Robert | 349 |
| H | |
| Hansen, Jessie L. | 158 |
| Hardy, Rosemary | 417 |
| Heinemann, Ruth I. | 505 |
| HEMACLUTINATION TESTS, Standardization of Centrifugal Force in _____ | 221 |
| HEMATOXYLIN AND EOSIN STAINING TECHNIQUE, Modified _____ | 148 |
| HEMOGLOBIN, _____ Electrophoresis _____ | 513 |
| Heyke, Brigitte | 333 |
| Hinton, Patricia F. | 46 |
| HISTOPATHOLOGICAL TECHNIQUE, Blocking Procedure in _____ | 129 |
| HISTOPLASMIN, Demonstration of Six Antigenic Constituents of _____ | 46 |
| by Immunoelectrophoresis _____ | 281 |
| Hoffman, Mae E. | 105 |
| Howe, Sister M. Martin | 479 |
| Hunt, A. L. C. | 225 |
| Hunter, DeWitt T. Jr. | 334 |
| HYDROLYSIS, A Combination of Medium for Demonstrating Starch and Gelatine _____ | 326 |
| HYPOFIBRINOGENEMIA, A Simple Method for Rapid Detection of _____ | 326 |
| I | |
| IFA TESTS, Conjugate-antigen Relationships in _____ | 192 |
| Igou, Patricia C. | 354, 501 |
| IMMUNOELECTROPHORESIS, Demonstration of Six Antigenic Constituents _____ | 46 |
| of Histoplasmin by _____ | 228 |
| IMMUNOLOGIC COMPETITION, _____ Due to ABO and RH Incompatible Pregnancy | 375 |
| INCUBATION TEMPERATURE, Effect of _____ on Enzyme Production for _____ | 417 |
| Lysine Decarboxylase and Cytochrome Oxidase Tests _____ | 459 |
| INSERVICE EDUCATION, Developing and _____ Program for Clinical Laboratories | 459 |
| Ishak, Kamal G. | 459 |
| J | |
| Johnston, John | 467 |

| | |
|----------------------|-----|
| Johnson, Roy M. | 375 |
| Jones, Rebecca | 379 |

K

| | |
|------------------------|-----|
| Kagan, Irving G. | 192 |
| Kandhari, K. C. | 423 |
| Knight, J. A. | 366 |
| Kremers, Beverly | 28 |

L

| | |
|--|----------|
| LACTIC DEHYDROGENASE, Serial, _____ and Glumatic Oxaloacetic Transaminase Automated Analysis | 366 |
| Lechtman, M. D. | 515 |
| Lewitt, Edith | 513 |
| Lewin, Edward | 269 |
| Lewis, Jay F. | 336, 490 |
| Lobstein, Otto E. | 400 |
| Long, Mary Jean | 253 |
| Low, Edmund, M. Y. | 326 |
| Luna, Lee G. | 459 |
| Lundgren, Elizabeth J. | 59 |
| LYSINE DECARBOXYLASE, A Rapid Test for _____ Production by Enterobacteriaceae Cultures | 372 |
| LYSINE DECARBOXYLASE, Effect of Incubation Temperature on Enzyme Production for _____ and Cytochrome Oxidase Tests | 375 |
| LYSOGENIC SHIGELLA FLEXNERI, Interference of _____ with Antimicrobial Disc Susceptibility Readings | 337 |

M

| | |
|---|-----|
| Maas-Balesh, K. | 474 |
| MAGNESIUM, The Determination of Serum _____: Automated Fluorometry vs Atomic Absorption | 349 |
| MAGNESIUM, The Measurement of Serum _____ by Atomic Absorption Spectrophotometry | 158 |
| MAGNESIUM, Total and Ultrafiltrable Calcium and _____ in Human Plasma Improved Method and Normal Values | 448 |
| Mainwaring, Rosser L. | 148 |
| MANAGEMENT AND MEDICAL TECHNOLOGY | 342 |
| Marshall, Vernon | 493 |
| McCrimmon, Aubry | 269 |
| MEDIA MONITORING, Quality Control in Bacteriology Through _____ | 387 |
| Miyada, Don S. | 235 |
| Molthan, Lyndall | 339 |
| MORAXELLA (TRIBE MIMAEAE), Achromobacter and _____: A Review and New Studies | 201 |

N

| | |
|--|-----|
| Nachum, Ronald | 515 |
| Neess, Ada D. | 408 |
| Nolan, J. F. | 366 |
| NONFERMENTING GRAM NEGATIVE BACTERIA, An Evaluation of Media for Differentiating | 311 |
| NORMALIZED T SCORES, Use of _____ in Grading Students | 59 |

O

| | |
|--------------------------|-----|
| O'Brien, Susan M. | 490 |
| Osmon, James R. | 448 |
| Oxborrow, Gordon S. | 394 |

P

| | |
|--|-----|
| PASTEURELLA MENINGITIS, _____ A Review of the Literature | 379 |
| Pavlech, Helen M. | 426 |
| PLASMA CLOTTING, _____ -A Tool for Cytology | 332 |
| POLYESTER WAX, _____ as an Embedding Medium for Serial Sectioning of Decalcified Specimens | 394 |
| POST-MORTEM BACKFLOW STUDIES, _____ | 323 |
| Poston, Francis | 263 |
| POTASSIUM, Variables Affecting the Determination of Sodium and _____ Using the AutoAnalyzer | 120 |
| Prestegard, Elberta | 437 |
| PROFESSIONALISM, _____ and the Conquest of Inner Space | 1 |
| The PROTHROMBIN TIME, Laboratory Control of Anticoagulation Therapy: The One-Stage _____ Quality Control in Coagulation Procedures | 296 |
| Pruden, Elizabeth L. | 349 |
| PSEUDOMONAS, Susceptibility of _____ To Colistin, Kanamycin and Polymyxin-B | 482 |

Q

| | |
|---|-----|
| QUALITY CONTROL IN BACTERIOLOGY, _____ Through Media Monitoring | 387 |
| The QUALITY CONTROL IN COAGULATION PROCEDURES, Laboratory Control of Anticoagulation Therapy: The One-Stage Prothrombin Time- _____ | 296 |

R

| | |
|--|-----|
| Raach, Henry E. | 332 |
| Ravmer, Helen | 400 |
| REFLECTANCE DENSITOMETRY, _____ of Cellulose Acetate Protein Electrophoresis | 28 |

| | |
|---|-----|
| REFRESHER PROGRAMS, _____ for Medical Technologists | 408 |
| RHEUMATOID ARTHRITIS, Slide Tests Versus Tube Tests in Serodiagnosis of _____ | 474 |
| Rodrigue, Mary Turner | 342 |
| Rosner, Richard | 285 |
| Russell, Henry T. | 400 |

S

| | |
|---|---------|
| SABHI, _____, A New Culture Medium for Pathogenic Fungi | 151 |
| SCHOOL OF MEDICAL TECHNOLOGY, Some Policies in Wisconsin ASCP | 135 |
| Searcy, Ronald L. | 15, 326 |
| Schgal, V. N. | 423 |
| SERRATIA, Simplified Differentiation of _____ from _____ | 97 |
| the Aerobacter and Paracolobactrum (Hafnia) Groups | 306 |
| SERUM ALBUMIN, The Effect of Bilirubin Concentration on Determination of _____ | 400 |
| SEVENTEEN-KETO STEROIDS, Concurrent Determination of Urinary _____ | 400 |
| Seventeen Ketogenic Steroids and _____ | 400 |
| SEVENTEEN-KETOGENIC STEROIDS, Concurrent Determination of Urinary _____ | 77 |
| and _____ Seventeen-Keto Steroids | 326 |
| SICKLE CELL HEMOGLOBIN ABNORMALITIES, Serum Complement Activity _____ | 375 |
| in Normal Individuals and Patients with _____ | 423 |
| Simms, Norval M. | 120 |
| Skelton, Angela | 354 |
| SKIN GLUCOSE, A Simplified Method for the Determination of _____ | 501 |
| SODIUM, Variables Affecting the Determination of _____ | 333 |
| and Potassium Using the AutoAnalyzer | 285 |
| SPACE FLIGHT, Microbiological Aspects of _____ | 334 |
| SPINAL FLUID PROTEIN, An Evaluation of a Gel Filtration- _____ | 482 |
| Spectrophotometric Method for _____ | 437 |
| SPINAL FLUID PROTEINS, Normal Values for Cellular Acetate _____ | 148 |
| Electrophoresis of _____ | 285 |
| STAINING RACK, Cover-Slip _____ | 192 |
| STAPHYLOCOCCI, Bacteriological Procedure for the Small Hospital Laboratory: _____ | 179 |
| A Rapid Method for Isolation and Identification of _____, Streptococci, _____ | |
| and Gram Negative Bacilli from Clinical Material | |
| STARCH, A Combination Medium for Demonstrating _____ and Gelatine Hydrolysis | |
| Steiner, Sheldon | |
| Stern, Walter R. | |
| STERIOD ANALYSES, _____ by Gas Chromatography | |
| Stevens, Herbert | |
| STREPTOCOCCI, Bacteriological Procedure for the Small Hospital Laboratory: _____ | |
| A Rapid Method for Isolation and Identification of Staphylococci, _____ | |
| and Gram Negative Bacilli from Clinical Material | |
| Sulzer, Alexander J. | |
| Swatek, Frank E. | |

T

| | |
|--|-----|
| TEACHING LABORATORY TECHNIQUES, _____ with Closed-Circuit Television | 253 |
| THIN LAYER CHROMATOPLATES, Laboratory Note: Conservation of _____ | 240 |
| TISSUE PREPARATION, _____ for Electron Microscopy | 35 |
| Tomasovic, A. A. | 246 |
| Trainer, Diane L. | 167 |
| TRANSAMINASE, Serial Lactic Dehydrogenase and Glumatic Oxaloacetic _____ | 306 |
| Automated Analysis | |

U

| | |
|---|-----|
| ULTRA FILTRATION, Concentration of Cerebrospinal Fluid by _____ | 225 |
| ULTRASONIC SOUND, Bone Decalcification Expedited by _____ | 263 |
| UREA NITROGEN, Rapid Determination of _____ in Serum or _____ | 361 |
| Plasma Without Deproteinization | 15 |
| UREA NITROGEN DETERMINATION, A New Photometric Method for Serum _____ | 493 |
| UREMIC BLOOD, The Decreased Bactericidal Effect of _____ | |
| on the Isolation of Micro-Organisms | |

V

| | |
|-----------------------|-----|
| Van Horn, Gage | 397 |
| Van, Peenan, P. F. D. | 431 |

W

| | |
|---------------------|-----|
| Walsh, Don | 1 |
| Weaver, Ralph | 372 |
| Widmann, Frances K. | 248 |
| Widra, Abe | 397 |
| Wieb, Mrs. Donna J. | 87 |
| Williams, Ralph B. | 337 |
| Williams, Ruth | 142 |
| Wolfe, Kenneth B. | 323 |
| Womack, C. R. | 77 |

Y

| | |
|----------------|-----|
| Yano, James R. | 228 |
|----------------|-----|

Z

| | |
|---|-----|
| ZOONOSIS RESEARCH, Collection of Animals for _____ In Vietnam | 431 |
|---|-----|
